FT INTERACTIVE: If data from FT Interactive contains evaluations rather than market quotations the following provisions apply: 1) Evaluated securities are typically complicated financial instruments. There are many methodologies (including computer-based analytical modeling and individual security evaluations) available to generate approximations of the market value of such securities, and there is significant professional disagreement about which is best. No evaluation method, including those used by FT Interactive, may consistently generate approximations that correspond to actual “traded” prices of the instrument; 2) FT Interactive’s methodologies used to provide the pricing portion of certain data may rely on evaluations; however you acknowledge that there may be errors or defections in FT Interactive’s software, databases, or methodologies that may cause resultant evaluations to be inappropriate for use in certain applications; and 3) you assume all responsibility for edit checking, external verification of evaluations, and ultimately the appropriateness of use of evaluations and other pricing data provided via the service in your applications, regardless of efforts made by FT Interactive in this respect. You shall indemnify and hold FT Interactive completely harmless in the event that errors, defects, or inappropriate evaluations are made available via the service or data.
